REACTION IN LIBERTY BONDS UNEXPLAINED

New York, May 11.—The construc-tive and helpful tenor of the week's many developments accounted largely for the extraordinary activity and vigorous rise in stocks, those being further enhanced by favorable technica

conditions. The amazing success of the liberty loan campaign, the addition check to the German offensive, excellent crop prospects and the forward strides reported in various industries emboldened speculative interests to a degree

not witnessed before this year.

That banking interests were not altogether averse to the bull movement was indicated by the stable monetary onditions, albeit time money remained irn with no increase of offerings. United States Steel's undisputed leadership at an extreme advance of

over 12 points was accompanied by gains of 3 to 10 points elsewhere. Encouragement extended to rails also, in consequence of the receipt of numerous new March statements of garnings. In well informed circles be lief in an early advance of freight

rates was general. Further reaction in liberty bonds which later embraced the 41-4's at extreme decline of 1 6-10 per cent. again lacked explanation, but had little effect upon the investment mar-Foreign remittances were unchanged.

enting the testimonial with the name of the soldier boy written on it.

Discussing the coal situation, Mr Myer said that consumers should prepare for the cold weather by storing are quartities of wood to supplement the use of coal. The poor who cannot at this time purchase coal will not suffer from the cold during the win-

ter, Mr. Myer says, for he will see that they have sufficient coal to keep them warm, even to the exclusion of others. Should persons who can afford to purchase coal during the sum-mer months fail to take advantage of the opportunity, they will have a dif-ficult time in securing fuel next winter, Mr. Myer says.

PROVIDES FOR PAYMENT TAXES BY INSTALLMENT

(International News Service.) Washington, May 11.-Introduction of a new revenue bill at the present session will be the signal for a renewed effort to make profits taxes payable in installment in stead of in a lump sum, it was learned today.

Advocates of the installment system hope that the treasury department reverse itself and permit payment of this year's taxes in that way, when an accurate estimate of the amounts the last revenue will bring in is available. They believe that in view of the difficulties the banks are for tax payments and at the same time financing government war loans, their plan will be adopted as an amendment to the new revenue bill without serious

opposition.

The revenue bill is expected to bring about a renewal of the effort to strike the zone system of payment for magazine and newspaper postage from the last revenue bill. It will give an opening for the advocates of heavy levies on huge incomes and profits again to attempt to write their theories

German Aero Who Tried Nose Spin to Dodge Pilot Found the Ruse Failed.

(Associated Press.) With the British Army in France, May 11.-There has been much air fighting during the last few days, and the British airmen have fully sustained the great reputation they established early in the war.

Several days ago near Ypres one British machine attacked five Ger-mans single-handed. The British engaged one enemy and fought him un-til he turned tail and fled. The English pilot then went after another German and pressed the attack so hard that the enemy was forced into a nose spin in an attempt to escape. The ruse was futile, however, for the Britisher followed him down, firing steadily into the helpless German ma-chine until the latter finally turned on its back and fell plummet-like, Another British plane was attacked by six enemy machines, which came at it from below and behind. But this year, mot ers' day is to

have a significance even deeper than formerly. With the assistance of military and naval authorities in the United States, with the country's ships at sea and commanding her troops abroad, and with the aid of the Red Cross and Young Men's Christian association officials, the day is to be one for an interchange of greetings between mothers at home and their

boys with the colors.

By men in foreign service, it is hoped, the day will be partly devoted to letter writing. Congress ha made the day a national flag day. Secretaries Baker and Daniels and Gen. o'clock Pastor H. C. McDowell has a specially prepared message, "Our Mothers," for this occasion. Mothers of soldiers are especially invited. Pershing have indorsed the innova-tion to be introduced this year on the theory that nothing so stimulates the morale of fighting men as letters from Honoring mothers or their memory

through some distinct act of kind-ness—a visit, a letter, or the wearing of a white carnation—are the marks of mothers' day observance which have been widely adopted in North and South America, England, Euope and in Australia,

The white carnation has been recognized as the special flower for mothers' day. Its whiteness is held symbolic of purity; its form, beauty; its fragrance, love; its wide field of growth, charity; its leading quali-ties, faithfulness—the embodiment of virtues of motherhood.

In her annual announcement of the day, Miss Jarvis says: "It is not a day of idle sentimentalism. It evokes a renewal of allegiance to our high-est ideals of womanhood and will contribute to the sanctity of home and motherhood and the strengthening of domestic and national integrity.

Observance of the day is to
